22 November 1974

MEMORANDUM FOR THE RECORD

SUBJECT : Conversation with Charles W. Keller, GAO

REFERENCE: Memorandum for the Record dated 21 November 1974

Per instructions of the ADDI, I called Mr. Charles W. Keller, GAO, on 22 November and told him that in response to his request of 21 November (see reference), that I could not arrange for him to either receive or see copies of the Economic Intelligence Weekly or International Oil Developments. I advised Mr. Keller that these weekly publications contained highly sensitive information and that because of security problems we had restricted access to officials who had a direct action responsibility in these fields. Mr. Keller offered no argument to my response. He went on to say that he understood that we published some unclassified reports and that he would like copies of anything we had done on petroleum. I told Mr. Keller that there was one such publication, World Oil Refineries (A(ER) 74-61), and that I would send him a copy.
